Please help investigate, your daughter Ivanka Trump's best friend, Wendi Deng, ex-wife of Rupert Murdoch , is a Chinese Top level spy (The general political department), with close relationship of Zeng qinghong. She violated USA INS law on Green Card that she only stayed with her 1st husband for 5 month, even though she divorced at 2 years and 7 month. She stayed at mean time with David Weirf, who paid her Yale tuition. Where the money came from since David Weirf is not wealthy at all and only work for a Chinese company? Subject: More information about QiaoWai, American Immigration Fund also report Wendi Deng to homeland Security

Dear Sec, Homeland Security and Congress

Here is one report from Homeland Security investigation on INS Alejandro Mayorkas interrupted EBS approval , time is from Sept 2012, to 3/24/2015. This exactly cover the time when Trump Bay Street EBS was urgent approved due to Hurricane Sandy ! Based on media, this report should have 99 pages.

<http://abcnews.go.com/US/top-homeland-official-alejandro-mayorkas-accused-political-favoritism/story?id=29868429>

In this DHS media article , it also mentioned Harry Reid together with Alejandro Mayorkas interrupt EBS visa approval process. Based on QiaoWai web description (QiaoWai1.jpg attachment), Brett Ashcroft-Green, who in charge of American Immigration Fund China part, used to be a staff of Harry Reid.

Based on QiaoWai website, it has a lot of EBS investments in US, such as w57 Manhattan, time square board way1568, etc. Supporters to QiaoWai not only from Obama, Rudy Giuliani but also from New York Governor David Peterson, Pete Grannis , Formal New York Mayor Bloomberg, etc <http://www.qiaowai.net/cyprus/jp/jfz/2013/0820/6054.html> (QiaoWai2.jpg), QiaoWai have a lot of other partners such as Charles Gargano http://www.qiaowai.net/zhuanli/701sq_2/ (attachment QiaoWai_CharlesGargano.jpg)

During interview with QiaoWai CEO , she claimed that QiaoWai EBS could be approved in 3 days. (See attachment 3days.jpg)

I also formally report Wendi Deng, Ivanka's best friend as Chinese Spy to homeland Security and congress as well. This was reported to state department, FBI and INS. See email below.

The strange thing is, Trump campaign manager fired on the same day when he got my email to report Wendi Deng as Spy on June. However, Ivanka still vacation with her on August.

1941年10月，在延安，毛泽东同志在《论持久战》中，第一次提出了“持久战”这个战略思想。他指出，抗日战争是一场持久战，最后胜利一定是属于中国的。这个思想，是毛泽东同志在抗日战争初期，根据中国的具体情况，对抗日战争的总路线进行了深刻的分析和总结，从而提出的一个科学的论断。这个论断，不仅为中国人民指明了抗战的方向，也为世界反法西斯战争提供了有力的理论支持。

It also stated in the ads that it is the only one that fit for urgent approve by INS due to Hurricane Sandy.

In the ads it said that Trump Bay Street tower is luxury apartments, started build from April, 2013, need 24 month (actually based on report, it is expected to finish in the end of 2016), I am so surprise to know that for a luxury apartment tower which at least take more than 2 years to build, it will help Hurricane Sandy !

is it because it got support from Obama, Debbie Wasserman etc ? I also know QiaoWai has a lot of Ads for US, with great support from Rudy Giuliani. I believe this obviously violated EB5 law and using EB5 cheating Chinese people.

In the following CNN report, Trump tower's Chinese investors buy a path to U.S. citizenship <http://money.cnn.com/2016/03/08/news/companies/donald-trump-wealthy-chinese-visas/> both Trump or Kushner did not mention its Chinese Partner QiaoWai and how Chinese connect to them through the Ads in China.

Since Kushner Company is also the major financial support for Trump Campaign based on report , I think it needs to investigate how Kushner company used money.

Information related to Trump tower EB5 and his daughter best friend Wendi Deng (Chinese Spy and cheating on Greencard) also be reported to INS, State Department and FBI.

Thank you for your attention.

Subject: Please help investigate EB5 for Trump NJ tower with Hurricane Sandy ? !Re: Report wendi Deng cheating on INS for greencard Fwd: The story behind Trump Tower, Obama, Rudy Giuliani, Debbie Wasserman and National Security Ivanka best friend Wendi Deng Chinese Spy

Dear INS and State Department

Based on below Trump NJ tower Chinese ads(picture attached as well) <http://www.qiaowai.net/zhuanli/xzx/>, it clearly stated that Trump NJ tower EB5 is the only EB5 urgently approved due to Hurricane Sandy . Why his tower EB5 is the only one urgently approved due to Hurricane Sandy ? It take years to build that tower when Hurricane Sandy already gone !

is it because it got help from Obama, Debbie Wasserman Support, does Trump could get his EB5 urgently approved due to Hurricane Sandy ?

Need INS to check this issue, especially as I just reported that Ivanka Trump's best friend Wendi Deng cheated INS for greencard and she is a Chinese Spy based on reports. So it is national security why Trump NJ tower Rich Chinese got EB5 urgent approved by Hurricane Sandy !

Please also forward to FBI for investigation too since this is related to national security. Trump is presidential candidate and he obviously did not mention his NJ tower EB5 urgent approved due to Hurricane Sandy with support of Obama in any of his public speech. <http://money.cnn.com/2016/03/08/news/companies/donald-trump-wealthy-chinese-visas/> why he hide this information ?!

Good morning, I am writing to you to about the story behind Trump Tower, report the dishonestly of Trump over national security vs his own family profits, Obama, Rudy Giuliani, Debbie Wasserman relationship with Trump tower Chinese ads CEO , etc.

On Mon, Jun 20, 2016 at 5:55 AM , I wrote an email to Trump titled "Please help investigate : Your daughter Ivanka Trump's best friend, Wendi Deng, ex-wife of Rupert Murdoch , is a Chinese Top level spy (The general political department)." to ask him to investigate Wendi Deng, based on report she was a top Chinese Spy.

He did not reply, instead, one big thing happened on 6/20 morning, his campaign manger got fired 8:30 am, media reported that Ivanka Trump played role in campaign manager's

firing. Lewandowski had sought to plant negative stories about her husband, Jared Kushner.

On Jun 23, I wrote him another email titled "Re: Lying Crooked Hillary ", describe possible lie of Hillary Clinton on Wang Jijun visited Cheng Du USA consulate issue related to Genocide and Forced Organ harvesting in China. This time trump politely responded (email will forward to you separately, it was sent using my another email account).

I was wondering why Lewandowski had sought to plant negative stories about her husband, Jared Kushner. Why Trump did not response on investigate Wendi Deng, a top level Chinese Spy. This is a serious issue.

So I went on to do more research, and here is what I found out this report :

Trump Tower Funded by Rich Chinese Who Invest Cash for Visas

<http://www.bloomberg.com/politics/articles/2016-03-07/trump-tower-financed-by-rich-chinese-who-invest-cash-for-visas>

Trump Bay Street is a 50-story luxury rental apartment building being built by Kushner Companies, whose chief executive officer, Jared Kushner, is married to Trump's daughter Ivanka. The firm that was hired to seek investors, US Immigration Fund, is run by Florida developer Nicholas Mastroianni, who announced a partnership last year with a Trump golf course in Jupiter, Florida.

The visa program is known as EB-5. In exchange for investing at least \$500,000 in a project promising to create jobs, foreigners receive a two-year visa with a good chance of obtaining permanent residency for them and their families.

I went on to do more research, and find out that US Immigration Fund (Chinese name 美国移民基金) has a Chinese partner in China called qiaowai (侨外) to do advertising for Trump's program and other programs in China. qiaowai (侨外) is almost rank No 1 in EB-5 projects in China. In the QiaoWai website, it stated Kushner 88 Trump Bay Street project, started 2013, is the only one that I-526 (for EB-5 visa) got urgent approved due to Hurricane Sandy in 2012. And it also stated that it has good relationship with Democracy party supporting from Obama, Debbie Wasserman-Schultz and Ron Klein . This is Kushner 88 Trump Bay Street project QiaoWai website link <http://www.qiaowai.net/zhuanli/xzx/> . You could also see QiaoWai CEO dingyingvian picture with president Obama .Chinese reports said it is Rudy Giuliani made QiaoWai succeed in USA <http://www.qiaowai.net/mtbd/16820.html>

CNN also has another report : Trump tower's Chinese investors buy a path to U.S. citizenship <http://money.cnn.com/2016/03/08/news/companies/donald-trump-wealthy-chinese-visas/>

Trump's spokespeople did not respond to a request for comment about his views on the EB-5 visa program or its use in this project. However, a Trump spokesperson did tell Bloomberg that "This was a highly successful license deal but [Trump] is not a partner in the financing of the development." Kushner Companies defended the use of the visas to raise cash. "The money was raised lawfully ... consistent with all the requirements of EB-5," said its statement to CNN. "This program enabled a development that created hundreds of new jobs in an area with employment needs."

Without Obama, Debbie Wasserman Support, does Trump could get his EB5 urgently approved due to Hurricane Sandy ? He obviously did not mention his Chinese partner QiaoWai at all !

Throughout his presidential campaign, Donald Trump has attacked China and warned about the dangers of deficient immigrant screening. However, Trump Never mentioned EB-5 in any of his proposal, which is very controversial especially in terms of security, and will be end in September 30 this year. EB5 I-526 could be approved within several days up to 6 months, there is no way to do background checks in such small time frame, which is why EB-5 is controversial and is a national security issue. I was so surprised to find out that Trump did not push investigation on Wendi Deng, who is best friend of his daughter Ivanka Trump for such a big national security issue. I am very worried about those immigrants in Trump Tower. I strongly request background check for all of them.

Thus I am really question on Trump's eligibility as presidential candidate. He put his family profit and interest in front of national security. I am afraid he would even sell USA freedom for his own profit.

In addition, as in "Trump Tower Funded by Rich Chinese Who Invest Cash for Visas report", Kushner Companies is a New Jersey-based real estate firm built by Kushner's father Charles, a former rainmaker in New Jersey Democratic politics who pleaded guilty to a federal campaign finance violation, filing false tax returns as well as attempts to silence a witness. Charles was sentenced in 2005 to a prison term of two years. He remains active in the company. Jersey City is the first and, so far, only Trump project for the company.

Thank you so much for your attention to this matter.

Sincerely

Hong

Dear Department of Justice, Attorney in General and Congress

On June, 2011, U.S. Department of State Adds Question about Organ Harvesting to Nonimmigrant Visa Application (Photo), Form DS-160 see attached, <http://en.minghui.org/html/articles/2012/4/15/132727.html>

On February, 2012, During the time when Hillary Clinton was Secretary of State, Former police chief and deputy mayor of Chongqing Wang Lijun made a surprising and hasty visit to the U.S. consulate in Chengdu , making international headlines. What Wang said to U.S. consulate officials, however, remained mostly confidential.

Sources told Bill Gertz, a national security reporter, that Wang handed U.S. officials key information about Bo Xilai and Zhou Yongkang's planned coup against Xi Jinping, the heir apparent of the Chinese Communist Party. It was also rumored that Wang attempted to defect and sought protection from U.S. officials.

A well-placed source has now told The Epoch Times that Wang gave U.S. officials confidential documents containing critical information about top communist officials' involvement in the persecution of Falun Gong. The source said Wang provided details about organ harvesting from living Falun Gong practitioners in China's network of military hospitals, prisons, mental hospitals, and labor camps.

We need Department of Justice and Attorney in General of US to investigate Hillary Clinton, the Secretary of State at that time together with State Department, whether they knew the Genocide in China and Hided the truth. This might caused million of Chinese be killed in past 4 to 5 years ! This should be called Accessory to murder.

When Gary Locke , the formal United States Ambassador to China was interviewed recently before presidential voting by NTDTV (New Tang Dynasty TV station) on question of whether the documents which Wang Iijun in 2012 handed to USA has organ harvesting related information , he said :

"I am not ... I cannot say ... I am not going to confirm whether or not there were such documents."

'Human Rights is Part of the DNA of America': An Interview with Gary Locke on Hillary Clinton, China, and the 2016 Election

By Matthew Robertson, Epoch Times | November 9, 2016 | Last Updated: November 10, 2016 7:47 pm

Gary Locke, the former ambassador to China, became an internet sensation in that country after he was spotted paying for his own Starbucks and carrying his own bags in the Seattle airport, as he got ready to fly to Beijing to assume his post. He subsequently played key roles in a number of major diplomatic incidents between the United States and China, including the attempted defection of Wang Lijun to the American consulate in Chengdu in February 2012, and the shelter of blind dissident Chen Guangcheng in the American consulate in Beijing, in April of the same year.

Ambassador Locke on Nov. 7 accepted a telephone interview from Simone Gao, a news anchor with New Tang Dynasty Television, an independent, overseas Chinese-language broadcaster and a media partner of the Epoch Times.

Epoch Times here republishes the transcript of that interview, edited for brevity and clarity.

Simone Gao: Ambassador Locke, thank you for accepting this interview. In any presidential election, particularly in this election, American people care a great deal about who the candidates are, because America's future hangs on the judgement and values of the president. We also know that the most important bilateral relationship in the world in the years and decades ahead will be the China-U.S. relationship. So we want to allow those fundamental values and judgements to be reflected, through discussion of human rights, trade, and national security, with regard to the United States and China. I'd also like to explore why you support Secretary Clinton.

During the past few decades, the framework of U.S. policy toward China has been engagement — engaging China economically to influence it politically. Now China is the second largest economy in the world but it hasn't gained much freedom, or become more democratic. Instead, foreign investment

and technology has boosted China's economy and provided the Party with more means to tighten control domestically. Meanwhile, China is investing in the United States, and there are concerns that its economic power now influences the United States. If Secretary Clinton becomes our next president, what is her fundamental thinking on economic relations with China?

Ambassador Locke: Well, first of all, let me just say, what a pleasure it is to be able to talk to you about this election, that is so important for the future of Americans. And as you said, for world order, and especially for China-U.S. relations, we need a president who is going to help restore good paying jobs for all of the people in America. We need to make sure that children of working, middle-class families can afford college education. Secretary Clinton is talking about building up our roads and our bridges, which will really improve the safety net and the method of transportation for the people of this country, but at the same time, provide good, good paying jobs for the American people. She is also a trusted, proven leader, and I have known her for over 20 years.

That's why we also need a person of her stature, leading the United States, representing us in the world. You know, we have differences, we have differences between United States and China. But we also have many areas of common interests. And quite frankly, the world is looking for leadership from both China and the United States, working together, cooperating together, to solve some of these tough, tough world issues, whether it is climate change, whether it is stopping the proliferation of nuclear weapons and nuclear arms, fighting piracy off the coast of Africa, stopping North Korea and Iran from developing a nuclear weapon, or just finding a cure for cancer.

There are differences between United States and China, and Secretary Clinton is highly respected in China, but she also speaks her mind. And she has the ability to sit down with the Chinese leaders to talk about these issues, and to get changes. You know, she gave her big speech in China many, many years ago, where she said that, women's rights is human rights. And I was with her when she was advocating on behalf of Chen Guangcheng, the blinded dissident and getting him successfully able to come to the United States. So she speaks up on human rights, she speaks up any time that she believes any country, whether China or Russia or even Germany or France or Canada, is violating international rules, whether it is on trade or human rights.

Simone Gao: *There is a well-known remark by Secretary Clinton about trade and human rights in 2009, to the effect that we would not allow human rights to get in the way of trade. In Chen Guangcheng's recent memoir, he expressed his disappointment with how Secretary Clinton handled human rights in China — both Chen and the human rights lawyer Gao Zhisheng believe that Secretary Clinton sacrificed human rights for trade. Do you find this criticism legitimate? What is Secretary Clinton's basic approach to human rights? Does it belong to the category of foreign affairs, or does it pertain to the fundamental values of America?*

Ambassador Locke: She has made it very clear that human rights is part of the DNA of America, and America cares about human rights, and it is always part of our policy and all of our positions. Yes, we support trade but never at the cost of human rights. And if you look at the Chen Guangcheng case, we were all prepared, under her direction and under her leadership, to let him stay in the United States embassy for many many years, if we could not reach an agreement with the Chinese government on his terms. He was setting out the terms by which he was willing to leave the embassy. And if the Chinese government did not agree to those terms, then we, the United States government, with Secretary Clinton's support, were willing to let him stay in the embassy for several years, the way we have with other dissidents in other countries.

But Secretary Clinton continued to press and push the Chinese government to let Chen Guangcheng come to the United States. That demonstrated her commitment to human rights. I was there. I saw all these discussions and so, I disagreed when they said that Secretary Clinton did not advocate on behalf of Chen Guangcheng. She was working night and day on his behalf.

Simone Gao: *Secretary Clinton is well known for her criticism of human rights in China — she has been advocating women's rights and criticising China's one-child policy, however, she has been silent on the most severe human rights violation...*

Ambassador Locke: Hey, let me say this, the choice between Hillary Clinton and Donald Trump, Hillary Clinton has had deep respect for the Chinese-American community, and she has been very firm in her discussion with Chinese leaders. And she is a friend of the Chinese-American community in America. She is a friend of the Chinese people. But yes, America has firm differences with the policies of China on trade and human rights, and United States government has always been strong and very candid about those differences.

I have seen Secretary Clinton be very firm and very direct with the Chinese leaders. Now the choice is between Donald Trump and Hillary Clinton. Donald Trump is constantly insulting people of different ethnic groups, including the Chinese. Donald Trump wrote me a letter, that is very, very negative, and

very insulting of the Chinese people. And he has, throughout this campaign, he has insulted people of different ethnic groups, people with physical disabilities, he certainly has been insulting about women and talking about how he can grope them, about how he can kiss them, just because he is a celebrity, even if they don't want to be touched or kissed by him. He's insulted Mexican Americans, Hispanic Americans, a judge, who is a very high-quality judge in America, just because the judge's parents are from Mexico. He has insulted people of Muslim, Islamic faith, and he talks about, for instance, deporting, immediately, all of the illegal immigrants in the United States. The Chinese people need to understand that ten percent of these illegal immigrants are in fact Chinese.

So when Donald Trump said on day one, he wanted to kick out all of the illegal immigrants and they have to reapply to come back into the United States, he is talking about Chinese Americans, too. So who is the better choice in terms of the Chinese-American community in the United States? A person who believes and has worked her entire life on behalf of children and families, like Hillary Clinton, or Donald Trump, who talks about giving the wealthiest people in America another tax break? The very, very wealthy, the millionaires of America, do not need a tax break.

Working middle-class families, the people who are struggling, need a president who is going to create more jobs and help their children go to colleges without having to pay tuition. Because we all know that a college education is fundamental to the American Dream, and provides the opportunity and the skills, so that all people, boys and girls, black and white, yellow, people of all ethnic groups, and all religions, can succeed, that's what America stands for.

America is the land of liberty, hope, freedom and opportunity. We need to make sure that the American Dream can be realized, can be attained, can be achieved, by Chinese-Americans, and people of all different ethnic groups. That's why America is such a strong country, and why so many people from around the world, want to come to America, because of our freedom, our liberty, our way of life, our diversity, our diversity of people, of different cultures, of different languages, of different religions, men and women working together, and achieving great things.

Simone Gao: *Tomorrow I will be interviewing the spokesperson from Donald Trump's campaign, and I'll ask that person about the issues you raised, including what you said just now that Donald Trump wrote you a letter, where he said insulting things about the Chinese people. Can you elaborate on that? What did he write, exactly?*

Ambassador Locke: Well, he was just complaining about the trade policy, but then, I mean, when I was at the U.S. Department of Commerce, we had concerns about trade policy with China, and rule of law, and making sure that the courts were fair and independent. But the way he said it, was very, very insulting about all Chinese.

I don't have the letter right in front of me, no. But, you know, it was very, very insulting. And that is his character, he is always insulting people. How can we have a world leader, sitting down, how can we have a US president, sitting down with other world leaders, trying to get them to change their behavior if all he does is insult them?

NTD Television host Simone Gao

Simone Gao: *Exactly — what people are looking at is not just policy, it's character, judgement, and values. On that, let me...*

Ambassador Locke: I mean, Donald Trump, Donald Trump, openly talks about how, what a good business person he is, because he doesn't pay his workers, he doesn't pay his architects, he doesn't pay his contractors. Well, he is smart, he has been a good businessman. I mean, I suppose you are making money, and saving money, by not paying the people who work for you. But is that a person with good character? Would we want our children to grow up to be like that type of a person?

Simone Gao: *Secretary Clinton has been silent on the most severe human rights violation and religious persecution in China over the last two decades, that is, the persecution of Falun Gong. In fact, neither the Bush administration nor the Obama administration has openly raised the Falun Gong issue*

with China. If Secretary Clinton becomes our next president, what is she going to do about the persecution of Falun Gong? Will she openly demand the Chinese government end the persecution?

Ambassador Locke: Actually I have been with Secretary Clinton when she has raised these human rights issues; she talked about religious freedom and she talked about greater autonomy and freedom for ethnic minorities in China and different religious groups. So, I have seen her, I have heard her, raise these issues to the Chinese leaders.

I am confident she will continue to advocate and push for human rights including greater religious freedom and tolerance within China.

Simone Gao: In June 2016, U.S. Congress passed H.Res. 343, condemning state-sanctioned forced organ harvesting of prisoners of conscience in China. This action is good, however it is fairly late, and it isn't enough. Evidence shows that the crime continues to date. If Secretary Clinton becomes the president, what is she going to do about this crime?

Ambassador Locke: Well, I am not part of her administration, so I cannot say what exactly her proposals are and what steps she is going to take next. All I can tell you is that Hillary Clinton has long had a history standing up and speaking out on behalf of human rights and that human rights is part of our foreign policy. We don't separate it out. It is part of the character of America, which makes us very, very different from most other countries. Human rights is part of our character, that's why we care about human rights. And I have seen Clinton advocate on behalf of human rights in a way that makes other world leaders perhaps uncomfortable, but she is very open about it, very forthright about it, and doesn't run from it.

Simone Gao: In February 2012 when Wang Lijun fled to the American Consulate in Chengdu, reports say that you recommended the State Department give him asylum status, but it was rejected. It was also said that Wang Lijun brought a number of top secret documents with him pertaining to the Chinese government's top leadership power struggle — the U.S. Congressional Foreign Affairs Committee chair requested the State Department to release these documents, but we never heard anything since?

Ambassador Locke: Those allegations are all completely untrue. We cannot give asylum to a person that is still in the country they are trying to leave. If you want to defect, you have to do that when you are outside the country that you are trying to leave. You cannot do it when you are still in that country.

Simone Gao: So you didn't recommend the State Department grant him asylum?

Ambassador Locke: It was impossible, you could never have done it, if we wanted it to.

Simone Gao: So you didn't do it?

Ambassador Locke: If let's say, let's say, let's say, let's say you are a Russian general, and you have all these secret documents, and you are to defect and you want to seek asylum. If you go to the U.S. Embassy in Moscow and you say, I want to defect, I want asylum, you have to ask for asylum when you are in the United States or outside of Russia. You cannot ask for it when you are inside Russia. How can we get that general out of Russia? If he comes to U.S. Embassy in Russia and we want to give him asylum, how do we get him to the United States? How do we get him outside of Russia? If we drive out him outside, from the embassy to the airport, the Russian police, the Russian military has the authority and the power to stop the car. They do not have to let the car take him to the airport. Even if we put him on an airplane, the Russian government does not have to let the airplane take off. So how do we get that Russian general outside of Russia. That's why, anytime, for instance, a Russian ballet dancer defects and seeks asylum, they do it when they are visiting another country, maybe they are on tour in France, maybe they are on tour in Canada. Then during a break, they somehow go to the French embassy or the US embassy, and they say, I want to defect, I want to leave Russia, I want to become a citizen or I want to go to United States to defect and to seek asylum. You do it when you are no longer in the country you are trying to leave.

Simone Gao: At that point in 2012, the U.S. Consulate was surrounded by security forces directed by Bo Xilai and the mayor of Chongqing, but somehow you decided to give Wang Lijun to the head of national security — is that true?

Ambassador Locke: Well, a lot of these things are classified and I cannot comment on it because it is classified information. But let me just tell you this: We were not going to let him walk out of the consulate in Chengdu, because he would have been apprehended and taken into custody by the security forces from Chongqing sent there by Bo Xilai. And we feared, we were concerned for his safety. We knew that just letting him walk out of the consulate would be very dangerous for him and that he might not be seen again. So, and because he cannot seek asylum, it is physically, legally impossible to seek asylum, to defect to the United States, if you are still in China at that time, we enabled him to make phone calls to Beijing and to talk to people who could guarantee his safety out of

during Tiananmen 1989 in Beijing US @ embassy

the U.S. consulate in Chengdu. We helped him secure safe passage out of the consulate in Chengdu.

Simone Gao: Thank you for that clarification. Were any of the documents he brought related to forced organ harvesting?

Ambassador Locke: I am not at lib... I cannot say .. I am not going to confirm whether or not there were such documents.

Simone Gao: OK. I touched on this question before, but let me ask again: You are well known in the Chinese community, and you're a familiar figure to everyday people in China. These people will want to know: Why do you support Secretary Clinton?

Ambassador Locke: Because she is a proven, effective leader. She works with people of all different political backgrounds and beliefs to get things done, to benefit the American people. She has very clear policies and goals for creating more good paying jobs for the American people, making sure that the children of working middle-class families can attend a college or university, without being in debt. And she is a respected world leader. And we need a person that our young people can look up to as a role model, and we need to make sure that the children of America continue to have big dreams and know that if they work hard and study hard, we have a president that will work on their behalf, so that their dreams can come true.

We need a president who is going to bring the people of the world together, bring the people of America together, to solve some of the tough issues facing us. We need a leader who values the many ethnic and cultural groups, religious groups, men and women of America, the diversity of America, because it is that great diversity of people — immigrants from around the world — that have made America great. And we need a president who recognizes the contribution of immigrant groups, recognizes the contribution of different cultures and people of different languages, and inspires them to work even harder, so that America is even a better place to live, work and raise a family, so that America continues to be a beacon of hope and opportunity and freedom for people around the world. So that America can be an example to people around the world, and to governments around the world.

Simone Gao: A final question. A peaceful and prosperous China will be a blessing for the world and the United States — where does Secretary Clinton see the positive force that will contribute to peace and prosperity for a future China? How will she work with and nurture this positive force?

Ambassador Locke: Anyone who has seen Secretary Clinton in the past, sees how she brings people together, how she respects people of different cultures, languages, and religions and ethnic groups, and tries to celebrate that diversity and capitalize on that diversity. People of different viewpoints, people with different ideas, when they come together, they actually come up with a better solution. And so many of the issues facing the world cannot be solved just by United States alone or even by China alone, or France alone, or Germany alone. They need world leaders and people of different countries all coming together.

Report Reveals Vast State-Run Industry to Harvest Organs in China

Up to 1.5 million organ transplants may have taken place in China since 2000, mostly harvested from Falun Gong prisoners of conscience, report says

By Matthew Robertson, Epoch Times | June 22, 2016 | Last Updated: August 7, 2016 4:40 pm

WASHINGTON—Transplant surgeons in China are awash in human organs. Some complain of working 24-hour shifts, performing back-to-back transplant surgeries. Others ensure they've got spare organs available, freshly harvested—just in case. Some hospitals can source organs within just hours, while others report having two, three, or four backup organs, in case the first organ fails.

All this has been taking place in China for over a decade, with no voluntary organ donation system and only thousands of executed prisoners—what China says is its official organ source. In phone calls, Chinese doctors have said the real source of organs is a state secret. Meanwhile, practitioners of Falun Gong have disappeared in large numbers, and many have reported being blood tested while in custody.

An unprecedented report by a small team of relentless investigators published on June 22 documents in sometimes astonishing detail the ecosystem of hundreds of Chinese hospitals and transplant facilities that have been operating quietly in China since around 2000.

Collectively, these facilities had the capacity to perform between 1.5 and 2.5 million transplants over the last 16 years, according to the report. The authors suspect the actual figure falls between 60,000 and 100,000 transplants per year since 2000.

"The ultimate conclusion of this update, and indeed our previous work, is that China has engaged in the mass killing of innocents," said co-author David Matas upon the report's launch at the National Press Club in Washington on June 22.

The study, titled "Bloody Harvest/The Slaughter: An Update," builds on the previous work of the authors on the topic. Released shortly after the passage of an official censure of organ harvesting in China by the U.S. House of Representatives, the research poses an explosive question: Has large-scale medical genocide been taking place in China?

Big Profits

The People's Liberation Army General Hospital, whose main task is to provide health care for top Communist Party and military officials, is among the most advanced and well-equipped hospitals in China. The number of organ transplants it performs is a military secret—but by the early 2000s, its clinical division, the 309 Hospital, was making most of its money from them.

• At Congressional Hearing, China's Organ Harvesting Seen Through Rose-Colored Glasses

"In recent years, the transplant center has been the primary profitable health care unit, with gross income of 30 million yuan in 2006 to 230 million in 2010—a growth of nearly eightfold in five years," its website states. That's a jump from US\$4.5 million to US\$34 million.

The PLA General Hospital wasn't the only health care institution to stumble across this lucrative business opportunity. The Daping Hospital in Chongqing, affiliated with the Third Military Medical University, also managed to boost its revenue from 36 million yuan in the late 1990s, when it had just started performing transplants, to nearly 1 billion in 2009—a growth of 25 times.

Even Huang Jiefu, China's spokesman on organ transplantation, stated to the respected business publication *Caijing* in 2005: "There's a trend of organ transplantation becoming a tool for hospitals to make money."

How these remarkable feats were achieved in so short a time across China, when there was no voluntary organ donation system, when the number of death row prisoners was decreasing, and where the waiting times for patients expecting transplants could sometimes be measured in weeks, days, or even hours, is the subject of the new 680-page (including citations) report.

Parts of the report, drawing from whistle blower testimonies and Chinese medical papers, state that some donors may not have even been dead when their organs were removed.

"This is extremely difficult research to have done," said Li Huige, a professor at the medical center of the Johannes Gutenberg University Mainz in Germany, and a member of the Doctors Against Forced Organ Harvesting advisory board, after reviewing the study.

The report contains a forensic tally of all known organ transplantation centers in China—over 700 of them—and counts their bed numbers, utilization rates, surgical staff, training programs, new infrastructure, recipient waiting times, advertised transplant numbers, use of anti-rejection drugs, and more. The authors, armed with this data, estimated the total number of transplants performed. The number stretches past 1 million.

This conclusion, though, is only half the story.

"It's a mammoth system. Each hospital has so many doctors, nurses, and surgeons. That in itself isn't a problem. China's a big country," said Dr. Li, in a telephone interview. "But where did all the organs come from?"

Captive Bodies

Organs for transplant can't be removed from dead bodies and simply placed into storage until needed; they need to be recovered before or soon after death, and then quickly implanted into a new host. The often desperate timing and logistics around this process make organ matching in most countries a complex field, with waiting lists and dedicated teams who encourage family members of accident victims to donate organs.

But in China, the donors seem to be captive, waiting around for the recipients.

Changzheng Hospital in Shanghai, a major PLA medical center, reported performing 120 "emergency liver transplants" as of April 2006.

The term refers to when a patient with a life-threatening condition is admitted to the hospital or transplant ward, and a matching organ is found within only hours or days. This is rare in other countries.

But Changzheng Hospital published a paper in the Journal of Clinical Surgery, a Chinese medical journal, about its success with emergency transplants. "The shortest time for a patient to be transplanted after entering the hospital was four hours," it stated.

In a one-week period from April 22 to April 30, 2005, the hospital performed 16 liver and 15 kidney transplants.

The First Affiliated Hospital of Zhejiang University published its own study in a similar vein, documenting that between early 2000 and late 2004, 46 patients received "emergency liver transplants"—meaning that recipients were all matched with a donor within 72 hours.

Even the official China Liver Transplant Registry, in a set of slides presenting its 2006 annual report, compares the number of "selectively timed" transplant surgeries with the emergency transplants. There were 3,181 regular transplants in the year, and 1,150, or just over a quarter, were made under emergency matching conditions.

These phenomena are extremely difficult, if not impossible, to explain according to official pronouncements. And they stand as prima facie evidence that a captive donor population is on standby for its organs to be harvested.

"This is very emotive for me," said Wendy Rogers, an Australian bioethicist at Macquarie University, whose close friend suffered liver failure due to hepatitis and needed a transplant within three days if she was to live.

"She was extraordinarily lucky to get one in that timeframe," Dr. Rogers said.

"But to do 46 of them in a row? It's hard to think of another plausible explanation, apart from killing on demand."

Parts of the report, drawing from whistleblower testimonies and Chinese medical papers, state that some donors may not have even been dead when their organs were removed. This includes the testimony of a former paramilitary police officer, who said he witnessed a live harvest operation conducted without anesthesia, and that of a former health care worker in Jinan.

Targeted for Elimination

The authors of the new report, relying on previous evidence and new findings, contend that the primary population in China that could have been targeted in this way are prisoners of conscience, composed primarily of practitioners of Falun Gong.

Falun Gong is a traditional discipline of the Buddhist school that became extremely popular in China throughout the 1990s. It involves doing five meditative exercises and living according to teachings based on the principles of truthfulness, compassion, and tolerance. The state tacitly supported Falun Gong, and an official survey indicated there were upward of 70 million practitioners by 1999—more than the number of members in the Communist Party.

In July 1999, the leader of the regime, Jiang Zemin, unleashed a national campaign to eliminate the practice. He initially met with high-level opposition, but quickly turned the anti-Falun Gong mobilization into a means of consolidating his power within the Party, as he promoted loyalists and sidelined resisters.

Organ harvesting as a means of eliminating the Falun Gong population appears to have begun by the following year.

The evidence that this has been taking place has been available for a decade now—but this is the first time the estimated death toll has been so formidable, the sheer volume of evidence so overwhelming, and the central role of the state as enabler so clear.

The three authors of the report—David Kilgour, David Matas, and Ethan Gutmann—have previously published reports on the topic, but this is the first time they have joined forces. Even they were surprised by the results of the study.

"When you were a kid, did you ever pick up a big rock and see all this life underneath it—ants and insects? That's what the experience of working on this report has been like," said Gutmann, a journalist whose book on the topic, "The Slaughter," was published in 2014.

Report

Kilgour is a former Canadian parliamentarian and Matas is a well-known human rights lawyer; the pair published a book on the topic, "Bloody Harvest," in 2009, which followed a groundbreaking report by the same name released in July 2006.

In the last few years, researchers of transplant abuse in China had largely been under the impression that the scale of organ harvesting had retreated considerably, or at least that Falun Gong practitioners and other prisoners of conscience were no longer targeted.

The authors discovered this was not so. "They've built a juggernaut," Gutmann said. "We're looking at a gigantic flywheel, which they can't seem to stop. I don't believe it's just profit behind it, I believe it's ideology, mass murder, and the cover-up of a terrible crime where the only way to cover up that crime is to keep killing people who know about it."

The backbone of the report, and its single largest section, is an exhaustive account of every hospital in China that is known to perform transplants. Of the 712 hospitals that are identified, 164 are given detailed, individual treatment in the report.

Centers of Harvesting

The Nanjing General Hospital, in the Nanjing Military Command, for instance, is given two pages. The report discusses the prolific career of Li Leishi, the founder of the kidney research center at the hospital; there was even a Communist Party document that made it mandatory to study the "model" he had established. Li was commended by the regime for building one of the fastest growing kidney transplant centers in the country.

In a 2008 interview, Li, then 82 years old, said that in the past he typically performed 120 kidney transplants a year, but now does only 70. Another chief surgeon was reported to be performing "hundreds of kidney transplants a year" as of 2001. With 11 chief and six associate surgeons engaged in kidney transplants, the total volume of transplants at the hospital may have reached around 1,000 annually, the report states.

China's Forced Organ Transplant Industry Much Larger Than Suspected, Say Canadian Investigators

Astonishing transplant volumes like this appear throughout the report.

At Fuzhou General Hospital, also in the Nanjing Military Command, Dr. Tan Jianming had personally directed 4,200 kidney transplants as of 2014, according to his biography on a website belonging to the Chinese Medical Doctor Association.

The Xinqiao Hospital, affiliated with the Third Military Medical University, in southwest Chongqing, said it had performed 2,590 kidney transplants by 2002, including 24 in a single day.

Zhu Jiye, director of the Peking University Organ Transplant Institute, said in 2013: "There was one year in which our hospital did 4,000 liver and kidney transplant operations."

A re-enactment of organ harvesting in China on Falun Gong practitioners, during a rally in Ottawa, Canada, in 2008. (Epoch Times)

In a June 2004 paper published in the Medical Journal of the Chinese People's Armed Police Forces, a handy table is provided that notes that the Beijing Friendship Hospital and the Guangzhou Nanfang Hospital had conducted more than 2,000 kidney transplants by the end of 2000. Three other hospitals each recorded performing 1,000 by the end of that year. Most of these must have been performed only in a year or so, given that up until the end of the 1990s, transplantation in China was a boutique medical niche.

Hospital after hospital, page after page, volume figures like this are laid down, sourced back to official Chinese publications, including speeches, internal newsletters, hospital websites, medical journals, media reports, and more.

Without exception, these hospitals only discussed such impressive volume figures beginning in the year 2000. The massive infrastructure development and surgeon training programs also only began to be reported then—soon after the onset of the persecution of Falun Gong.

State Killing Machine

The Chinese regime's official line on its organ sources has shifted over time. In 2001, when the first defector emerged from China claiming that the regime was using death row prisoners as an organ source, official spokesmen denied it, claiming that China relies primarily on voluntary donors.

In 2005, officials began hinting that death row prisoners were used instead. And after allegations of organ harvesting from Falun Gong practitioners were made public, in 2006, Chinese officials insisted that death row prisoners, who consented to having their organs removed after death, were the primary source.

But the menacing conclusion that slowly emerged through the research published in the report—which includes nearly 2,000 footnotes—is that the entire industry was deliberately created, almost overnight—right after an abundant new organ source became available.

This is suggested by the immense state involvement, both at the central and local levels, in the industry. Beginning in the 1990s, China's health care system was largely privatized, with the state only paying for infrastructure, while hospitals had to finance themselves.

The liver transplant center at Renji Hospital saw a leapfrogging number of transplant beds: from 13 in late 2004, to 23 only two weeks later, to 90 in 2007, to 110 in 2014.

In 2006, Tianjin First Central Hospital added an entire 17-story building, with 500 beds, just for organ transplants. There are many other such cases; the report contains photographs of the often impressive buildings.

Organ transplantation quickly became a profitable business, and the central and local governments underwrote research and development, the construction of palatial new transplant facilities, and funded doctor training programs, including the overseas training of hundreds of transplant surgeons.

The Tianjin First Central Hospital. (Hospital files)

An entire industry of Chinese-made anti-rejection drugs came online, while Chinese hospitals began developing their own preservative solutions, chemicals in which organs are kept while being transported between the donor and the recipient.

As the transplant center associated with China Medical University in Shenyang said on its website: "To be able to complete such a large number of organ transplant surgeries every year, we need to give all of our thanks to the support given by the government. In particular, the Supreme People's Court, Supreme People's Procuratorate, Public Security system, judicial system, Ministry of Health, and Ministry of Civil Affairs have jointly promulgated laws to establish that organ procurement receives government support and protection. This is a one-of-a-kind in the world."

The authors of the report have declined to give a death toll. While it is possible that in some cases multiple organs came from a single victim, until 2013 China had only an ad hoc and localized matching system. Chinese surgeons have also complained about the great wastage in China's transplant industry, where often only one organ comes from one donor. Thus, if 60,000 to 100,000 transplant surgeries were performed annually, the death toll of organ harvesting in China may stretch to 1.5 million.

As China Medicine Report wrote in a late 2004 summary of the transplant industry: "Currently, because China has no interactive organ registration system, sometimes only a kidney is taken from a donor and many other organs are simply wasted."

Related Coverage

Matas, at the press conference on June 22, said: "The phenomena of multiple organs from one person has been happening, but in a statistically insignificant way."

According to Lan Liugen, the deputy director of surgery at the PLA's No. 303 Hospital in Guangxi Province, as of early 2013 there were only two hospitals in China that could procure and transplant multiple organs from a single donor. "Such surgeries are the best use of donor resources," he said. "Currently only countries like the United States, Germany, and Japan can do multiple organ transplants from the same donor simultaneously."

The authors are publishing their findings at a time when the climate of opinion on this issue seems poised for a shift: Journalists are more willing to look into the topic; documentaries on it are being produced and winning awards; and the number of transplant doctors and ethicists who are learning about China's transplant system, and who are appalled by it, is growing.

Recently, the United States House of Representatives passed a resolution expressing concern about China's practices, with House members denouncing them as "ghoulish" and "disgusting."

BY THE NUMBERS

CHINA'S UNEXPLAINED ORGAN TRANSPLANTS OVER 15 YEARS

China built hospitals, trained staff, and bought drugs to complete millions of organ transplants from 2001 to 2016, but the regime claims only 150,000-300,000 transplants have taken place. Here's how the numbers stack up.

Approved hospitals perform the bulk of transplant operations studied in the report—approximately 475 per hospital per year, totalling **1,039,500 over 15 years**. Unapproved hospitals operated from 2001 to 2007 and averaged 86 transplants per hospital per year, totalling **339,850 from 2001 to 2007**.

► *Each figure represents*
5,000 TRANSPLANT OPERATIONS

► OFFICIAL STATISTICS

The regime claims 10,000 to 20,000 transplants are done each year, averaged here as 225,000 over 15 years.

Dear Attorney General , Justice Department and Congress Leader

Good night.

This morning I reported you "Accessory to murder investigation on Hillary Clinton and State Department"

Now I want to raise you about the Hate Crime of Trump against Muslim

Please read this article :

Donald Trump and the Spike in Anti-Muslim Hate Crimes in the U.S.

http://www.slate.com/blogs/the_slatest/2016/05/09/donald_trump_and_the_rise_of_anti_muslim_hate_crimes.html.

We all see this fact all over USA during this election. Even though I am not a Muslim, I do not want to see

"Then they came for the Jews, and I did not speak out—

Because I was not a Jew.

Then they came for me—and there was no one left to speak for me."

I knew Hate Crime, since I am a victim of it. It is what Chinese Communist Party (CCP) did and is doing to Falun Gong.

Several times in New York, DC and other cities when I joined Falun Gong activities, I heard and saw those horrible words toward us. I always have to tell my son to keep distance with them. Several years ago in DC even in front of one congress building, one CCP just took picture of my little son because I wear a yellow Falun Dafa T shirt. I told him that if he did not stop and delete those pictures, I will report to police. He then left and took picture again from distance. They may never know and read any Falun Gong book. They hate us simply because they were brainwashed by the slanders from CCP.

There is a lot of reports, and here is one example :

San Francisco: Falun Gong Practitioners Expose CCP Hate Crimes (Photos)

<http://en.minghui.org/html/articles/2012/6/18/134025.html>

Falun Dafa (or Falun Gong) is an ancient meditation practice consisting of five sets of easy-to-learn gentle movements and meditation. It is a high level cultivation practice which is guided by the characteristics of the universe – truthfulness, compassion, and forbearance. It tremendously help to reduce stress and bring great improvements in health and fitness. It is always taught free of charge by volunteers, and can be practiced individually or in groups. www.falundafa.org

Once again I would like to bring the Hate Crime of Trump against Muslim to you since it may happen to anyone else.

Dear Mr. Wang:

Thank you for contacting the U.S. Securities and Exchange Commission (SEC). This email confirms receipt of your September 2, 2016 and September 3, 2016 correspondence to the SEC's Chair Mary Jo White and others regarding your concerns about QiaoMai and the U.S. Immigration Fund. Your emails have been forwarded to the SEC's Office of Investor Education and Advocacy (OIEA) for review and response.

OIEA processes many complaints received from individual investors and others. We keep records of the correspondence we receive in a searchable database that SEC staff may make use of in inspections, examinations, and investigations. In addition, some correspondence received by OIEA is referred directly to other SEC offices and divisions for their review. If they have any questions or wish to respond directly to your comments, they will contact you.

The SEC conducts its investigations on a confidential and nonpublic basis and neither confirms nor denies the existence of an investigation unless the SEC brings charges against someone involved. We do this to protect the integrity and effectiveness of our investigative process and to preserve the privacy of the individuals and entities involved. As a result, we will be unable to confirm whether an investigation exists or provide you with any updates on the status of your complaint or of any pending SEC investigation. Information on our policy is enclosed. You may wish to check our website, www.sec.gov, for information about pending SEC civil actions, administrative cases, and other matters.

INFORMATION ABOUT SEC INVESTIGATIONS

Each year, thousands of investors ask the Securities and Exchange Commission to investigate the activities of other investors, financial professionals, corporations, brokerage firms, investment companies, stock exchanges, and others. These complaints generally suggest some improperly or misconduct and sometimes make a plea to the SEC for direct assistance in resolving a grievance.

The SEC has the authority to investigate whether violations of the federal securities laws have occurred, and we make every effort to evaluate promptly and thoroughly the information provided by investors. But we cannot investigate every investor complaint. While many investor complaints do lead to full investigations and, if appropriate, to enforcement actions, we cannot guarantee that our review will lead to further investigation or that the SEC will take any legal action.

We also cannot provide you with updates on the status of your complaint or your request for an investigation. The SEC conducts investigations confidentially for two main reasons. First, we can conduct investigations more effectively if they are not announced publicly. For instance, important documents and evidence can be destroyed quickly if people hear of an investigation. Second, we keep our investigations confidential to protect the reputations of companies and individuals if we find no wrongdoing or decide we cannot bring a successful action against them. The SEC will not confirm or deny the existence of an investigation unless, and until, it becomes a matter of public record as the result of a court action or administrative proceeding.

When there is proof that someone has violated the securities laws, the sanctions may include financial penalties, orders to surrender profits, cease and desist orders, or an injunction by a court to prevent further violations. The SEC may also bar individuals from working for a securities firm, investment adviser, or investment company. We can also ask a federal court to bar individuals from being officers and directors of publicly held companies. In some situations, we may refer a case to the Department of Justice for possible criminal prosecution.

The SEC publishes news releases about its lawsuits and administrative actions, and the news media often report on them. You can read and download the SEC's "Enforcement Actions" on our website at www.sec.gov/divisions/enforce/enforceactions.shtml. Subject: Report EBS Cheating of QiaoWai for Kushner Company, KABR and US Immigration Fund on Trump Bay Street tower Chinese Ads

Dear SEC and Congress Leaders

Good morning, I am writing to you to report QiaoWai, the Chinese partner of US Immigration Fund (Chinese name 美国移民基金) Ads (See Attached) for Trump Bay Street tower Kushner and KABR Company in China cheating on EBS.

This is the Chinese Ads website <http://www.qiaowai.net/zhuanli/zz/>

It clearly stated (as attached picture and below email) that US Immigration Fund has strong backup from government, gained support from Obama, Debbie Wasserman-Schultz and Ron Klein in person.

It also stated in the ads that it is the only one that fit for urgent approve by INS due to Hurricane Sandy.

In the ads it said that Trump Bay Street tower is luxury apartments, started build from April, 2013, need 24 month (actually based on report, it is expected to finish in the end of 2016). I am so surprise to know that for a luxury apartment tower which at least take more than 2 years to build, it will help Hurricane Sandy !

Is it because it got support from Obama, Debbie Wasserman etc ? I also know QiaoWai has a lot of Ads for US, with great support from Rudy Giuliani. I believe this obviously violated EBS law and using EBS cheating Chinese people.

In the following CNN report, Trump tower's Chinese investors buy a path to U.S. citizenship <http://money.cnn.com/2016/03/08/news/companies/donald-trump-wealthy-chinese-visas/> both Trump or Kushner did not mention its Chinese Partner QiaoWai and how Chinese connect to them through the Ads in China.

Since Kushner Company is also the major financial support for Trump Campaign based on report , I think it needs to investigate how Kushner company used money.

Information related to Trump tower EB5 and his daughter best friend Wendi Deng (Chinese Spy and cheating on Greencard) also be reported to INS, State Department and FBI.

Thank you for your attention.

Dear INS and State Department

Based on below Trump NJ tower Chinese ads(picture attached as well) <http://www.qiaowai.net/zhuanli/xyz/>, it clearly stated that Trump NJ tower EB5 is the only EB5 urgently approved due to Hurricane Sandy . Why his tower EB5 is the only one urgently approved due to Hurricane Sandy ? It take years to build that tower when Hurricane Sandy already gone !

Is it because it got help from Obama, Debbie Wasserman Support, does Trump could get his EB5 urgently approved due to Hurricane Sandy ?

Need INS to check this issue, especially as I just reported that Ivanka Trump's best friend Wendi Deng cheated INS for greencard and she is a Chinese Spy based on reports. So it is national security why Trump NJ tower Rich Chinese got EB5 urgent approved by Hurricane Sandy !

Please also forward to FBI for investigation too since this is related to national security. Trump is presidential candidate and he obviously did not mention his NJ tower EB5 urgent approved due to Hurricane Sandy with support of Obama in any of his public speech. <http://money.com.com/2016/03/08/news/companies/donald-trump-wealthy-chinese-visas/> why he hide this information ?!

Good afternoon, I am writing to you to about the story behind Trump Tower, report the dishonesty of Trump over national security vs his own family profits, Obama, Rudy Giuliani, Debbie Wasserman relationship with Trump tower Chinese ads CEO , etc.

He did not reply, instead, one big thing happened on 6/20 morning, his campaign manger got fired 8:30 am, media reported that Ivanka Trump played role in campaign manager's firing. Lewandowski had sought to plant negative stories about her husband, Jared Kushner.

On Jun 23, I wrote him another email titled "Re: Lying Crooked Hillary ", describe possible lie of Hillary Clinton on Wang Jijun visited Cheng Du USA consulate issue related to Genocide and Forced Organ harvesting in China. This time trump politely responded (email will forward to you separately, it was sent using my another email account).

I was wondering why Lewandowski had sought to plant negative stories about her husband, Jared Kushner. Why Trump did not response on investigate Wendi Deng, a top level Chinese Spy. This is a serious issue.

So I went on to do more research, and here is what I found out this report :

Trump Tower Funded by Rich Chinese Who Invest Cash for Visas

<http://www.bloomberg.com/politics/articles/2016-03-07/trump-tower-financed-by-rich-chinese-who-invest-cash-for-visas>

Trump Bay Street is a 50-story luxury rental apartment building being built by Kushner Companies, whose chief executive officer, Jared Kushner, is married to Trump's daughter Ivanka. The firm that was hired to seek investors, US Immigration Fund, is run by Florida developer Nicholas Mastroianni, who announced a partnership last year with a Trump golf course in Jupiter, Florida.

The visa program is known as EB-5. In exchange for investing at least \$500,000 in a project promising to create jobs, foreigners receive a two-year visa with a good chance of obtaining permanent residency for them and their families.

I went on to do more research, and find out that US Immigration Fund (Chinese name 美国移民基金) has a Chinese partner in China called qiaowai (侨外) to do advertising for Trump's program and other programs in China. qiaowai (侨外) is almost rank No 1 in EB-5 projects in China. In the QiaoWai website, it stated Kushner 88 Trump Bay Street project, started 2013, is the only one that I-526 (for EB-5 visa) got urgent approved due to Hurricane Sandy in 2012. And it also stated that it has good relationship with Democracy party supporting from Obama, Debbie Wasserman-Schultz and Ron Klein . This is Kushner 88 Trump Bay Street project QiaoWai website link <http://www.qiaowai.net/zhuanti/czy/> . You could also see QiaoWai CEO dingyngwian picture with president Obama .Chinese reports said it is Rudy Giuliani made QiaoWai succeed in USA <http://www.qiaowai.net/rtdbd/16820.html>

CNN also has another report : Trump tower's Chinese investors buy a path to U.S. citizenship <http://money.cnn.com/2016/03/08/news/companies/donald-trump-wealthy-chinese-visas/>

Trump's spokespeople did not respond to a request for comment about his views on the EB-5 visa program or its use in this project. However, a Trump spokesperson did tell Bloomberg that "This was a highly successful license deal but [Trump] is not a partner in the financing of the development." Kushner Companies defended the use of the visas to raise cash. "The money was raised lawfully ... consistent with all the requirements of EB-5," said its statement to CNN. "This program enabled a development that created hundreds of new jobs in an area with employment needs."

Without Obama, Debbie Wasserman Support, does Trump could get his EB5 urgently approved due to Hurricane Sandy ? He obviously did not mention his Chinese partner QiaoWai at all !

Throughout his presidential campaign, Donald Trump has attacked China and warned about the dangers of deficient immigrant screening. However, Trump Never mentioned EB-5 in any of his proposal, which is very controversial especially in terms of security, and will be end in September 30 this year. EB5 I-526 could be approved within several days up to 6 months, there is no way to do background checks in such small time frame, which is why EB-5 is controversial and is a national security issue. I was so surprised to find out that Trump did not push investigation on Wendi Deng, who is best friend of his daughter Ivanka Trump for such a big national security issue. I am very worried about those immigrants in Trump Tower. I strongly request background check for all of them.

Thus I am really question on Trump's eligibility as presidential candidate. He put his family profit and interest in front of national security. I am afraid he would even sell USA freedom for his own profit.

In addition, as in "Trump Tower Funded by Rich Chinese Who Invest Cash for Visas report", Kushner Companies is a New Jersey-based real estate firm built by Kushner's father Charles, a former rainmaker in New Jersey Democratic politics who pleaded guilty to a federal campaign finance violation, filing false tax returns as well as attempts to silence a witness. Charles was sentenced in 2005 to a prison term of two years. He remains active in the company. Jersey City is the first and, so far, only Trump project for the company .

Thank you so much for your attention to this matter.

Sincerely

Hong

Subject: More information about QiaoWai, American Immigration Fund also report Wendi Deng to homeland Security

Dear Sec, Homeland Security and Congress

Here is one report from Homeland Security investigation on INS Alejandro Mayorkas interrupted EB5 approval, time is from Sept 2012, to 3/24/2015. This exactly cover the time when Trump Bay Street EB5 was urgent approved due to Hurricane Sandy. Based on media, this report should have 99 pages.

<http://abcnews.go.com/US/top-homeland-official-alejandro-mayorkas--accused-political-favoritism/story?id=29868429>

In this DHS media article, it also mentioned Harry Reid together with Alejandro Mayorkas interrupt EB5 visa approval process. Based on QiaoWai web description (QiaoWai.jpg attachment), Brett Ashcroft-Green, who in charge of American Immigration Fund China part, used to be a staff of Harry Reid.

Based on QiaoMai website, it has a lot of EB5 investments in US, such as w57 Manhattan, time square board way1568, etc. Supporters to QiaoMai not only from Obama, Rudy Giuliani but also from New York Governor David Peterson, Pete Gramis , Formal New York Mayor Bloomberg, etc <http://www.qiaowai.net/cyprus/jpf/z/2013/0820/6054.html> (QiaoMai2.jpg), QiaoMai have a lot of other partners such as Charles Gargano http://www.qiaowai.net/zhanti/701tsq_2/ (attachment QiaoMai_CharlesGargano.jpg)

During interview with QiaoMai CEO , she claimed that QiaoMai EB5 could be approved in 3 days. (See attachment 3days.jpg)

I also formally report Wendi Deng, Ivanka's best friend as Chinese Spy to homeland Security and congress as well. This was reported to state department, FBI and INS. See email below.

The strange thing is, Trump campaign manager fired on the same day when he got my email to report Wendi Deng as Spy on June. However, Ivanka still vacation with her on August.

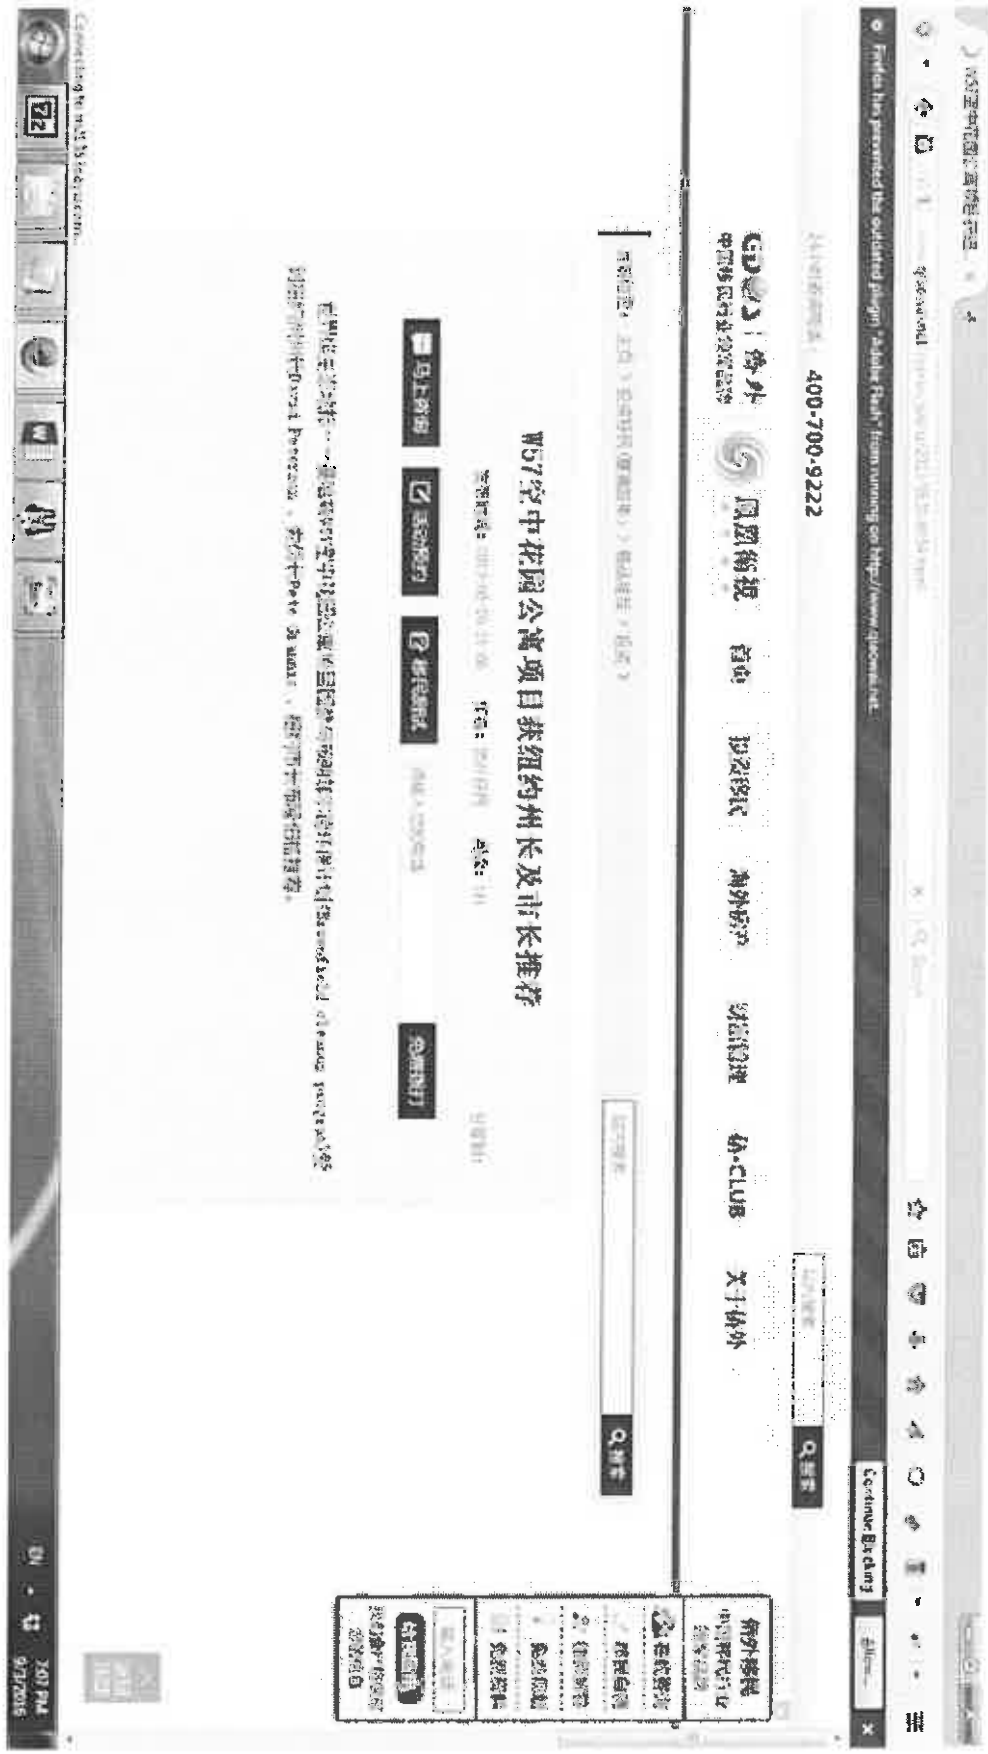

I strongly suggest SEC, Congress and Homeland Security to investigate on QiaoMai, American Immigration Fund EB5 money usage. I suspect they were illegally used for campaign since this year is Congress and Presidential election year.

thanks

Dear SEC and Congress Leaders

Good morning, I am writing to you to report QiaoMai, the Chinese partner of US Immigration Fund (Chinese name 美国移民基金) Ads (See Attached) for Trump Bay Street tower Kushner and KABR Company in China cheating on EB5.

This is the Chinese Ads website <http://www.qiaowal.net/zhuanli/xzy/>

It clearly stated (as attached picture and below email) that US Immigration Fund has strong backup from government, gained support from Obama, Debbie Wasserman-Schultz and Ron Klein in person.

It also stated in the ads that it is the only one that fit for urgent approve by INS due to Hurricane Sandy.

In the ads it said that Trump Bay Street tower is luxury apartments, started build from April, 2013, need 24 month (actually based on report, it is expected to finish in the end of 2016), I am so surprise to know that for a luxury apartment tower which at least take more than 2 years to build, it will help Hurricane Sandy !

is it because it got support from Obama, Debbie Wasserman etc ? I also know QiaoWai has a lot of Ads for US, with great support from Rudy Giuliani. I believe this obviously violated EBS law and using EBS cheating Chinese people.

In the following CNN report, Trump tower's Chinese investors buy a path to U.S. citizenship <http://money.cn.com/2016/03/08/news/companies/donald-trump-wealthy-chinese-vissas/> both Trump or Kushner did not mention its Chinese Partner QiaoWai and how Chinese connect to them through the Ads in China.

Since Kushner Company is also the major financial support for Trump Campaign based on report , I think it needs to investigate how Kushner company used money.

Information related to Trump tower EBS and his daughter best friend Wendi Deng (Chinese Spy and cheating on Greencard) also be reported to INS, State Department and FBI.

Thank you for your attention.

Dear INS and State Department

Based on below Trump NJ tower Chinese ads(picture attached as well) <http://www.qiaowai.net/zhuanli/xzx/>, it clearly stated that Trump NJ tower EBS is the only EBS urgently approved due to Hurricane Sandy . Why his tower EBS is the only one urgently approved due to Hurricane Sandy ? It take years to build that tower when Hurricane Sandy already gone !

is it because it got help from Obama, Debbie Wasserman Support, does Trump could get his EBS urgently approved due to Hurricane Sandy ?

Need INS to check this issue, especially as I just reported that Ivanka Trump's best friend Wendi Deng cheated INS for greencard and she is a Chinese Spy based on reports. So it is national security why Trump NJ tower Rich Chinese got EBS urgent approved by Hurricane Sandy !

Please also forward to FBI for investigation too since this is related to national security. Trump is presidential candidate and he obviously did not mention his NJ tower EBS urgent approved due to Hurricane Sandy with support of Obama in any of his public speech. <http://money.cn.com/2016/03/08/news/companies/donald-trump-wealthy-chinese-vissas/> why he hide this information ?!

So I decide to report to INS directly here.

Please help investigate, Ivanka Trump's best friend, Wendi Deng, ex-wife of Rupert Murdoch , is a Chinese Top level spy (The general political department), with close relationship of Zeng qinghong. She violated USA INS law on Green Card that she only stayed with her 1st husband for 5 month, even though she divorced at 2 years and 7 month. She stayed at mean time with David Warf, who paid her Yale tuition. Where the money came from since David Warf is not wealthy at all and only work for a Chinese company? You should investigate on her first ! using google 邓文迪 间谍 and you will see a lot of reports, using google translator to know more on her.

Good morning, I am writing to you to about the story behind Trump Tower, report the dishonestly of Trump over national security vs his own family profits, Obama, Rudy Giuliani, Debbie Wasserman relationship with Trump tower Chinese ads CEO , etc.

On Mon, Jun 20, 2016 at 5:55 AM , I wrote an email to Trump titled "Please help investigate : Your daughter Ivanka Trump's best friend, Wendi Deng, ex-wife of Rupert Murdoch , is a Chinese Top level spy (The general political department), " to ask him to investigate Wendi Deng, based on report she was a top Chinese Spy.

He did not reply, instead, one big thing happened on 6/20 morning, his campaign manger got fired 8:30 am, media reported that Ivanka Trump played role in campaign manager's firing. Lewandowski had sought to plant negative stories about her husband, Jared Kushner.

On Jun 23, I wrote him another email titled "Re: Lying Crooked Hillary ", describe possible lie of Hillary Clinton on Wang Jijun visited Cheng Du USA consulate issue related to Genocide and Forced Organ harvesting in China. This time trump politely responded (email will forward to you separately, it was sent using my another email account).

I was wondering why Lewandowski had sought to plant negative stories about her husband, Jared Kushner. Why Trump did not response on investigate Wendi Deng, a top level Chinese Spy. This is a serious issue.

So I went on to do more research, and here is what I found out this report :

Trump Tower Funded by Rich Chinese Who Invest Cash for Visas
